KITCHEN
CANTINA

Our menu features plant-based versions of Mexican comfort food classics created by Chef Rene Andrade. Rene wanted to maintain the spirit and flavor of the food he grew up with in Mexico, so he created a menu that is heavily influenced by the history of his home. Rene's goal was to put a lighter, healthier spin on regional Mexican fare using local farmers and the freshest ingredients available. Although our menu is entirely meat-free, dairy-free, and egg-free, many of the dishes were created with ingredients that emulate cream sauces, a variety of different cheeses and animal proteins such as beef, chicken and fish. We did this because we knew that although there are a lot of people looking to eat healthier, they are not so keen on giving up the taste and texture of their favorite foods. While we are not going to go as far as saying that our plant-based versions taste exactly like "the real thing", we will say that we have gotten pretty darn close. Ultimately, we just want to prove that you don't have to sacrifice your taste buds or your wallets to enjoy mouth-watering plant-based fare. Thanks for coming in and we hope that you love what we have created here at GuacStar!
